

LH-75AN4ND

Next Generation Display

A close-up photograph of a person's face, specifically their eyes and forehead, looking towards the right. The person's face is partially obscured by a dark rectangular frame that contains the text 'Next Generation Display'. The background of the photo is dark with some blue and purple light effects.

Android Displays - Designed
for Commercial SignEdge Applications

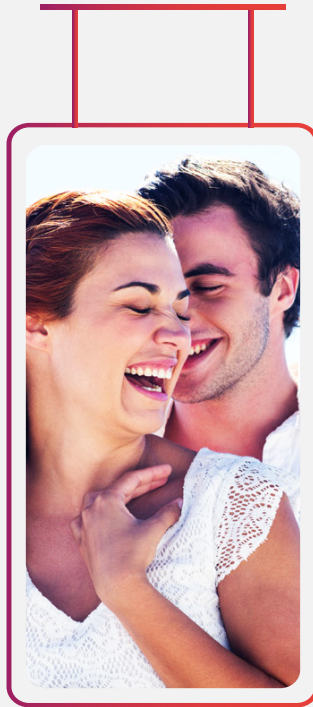

Panasonic
BUSINESS

4K PRO HDR
ULTRA HD TV

HDR-enabled displays will expand the contrast ratio and color space to offer a more realistic and natural image closer to the way your eyes actually see the real world. Deep blacks are combined with very bright highlights to produce a level of reality not previously possible.

DOLBY
DIGITAL

Dolby audio delivers louder and richer volume on small speakers that makes the audio mix more intelligible. Works intelligently to optimize audio for your content and equipment.

Chromecast
built-in

Built-in Chromecast lets you cast your phone, tablet or laptop right to your TV display.

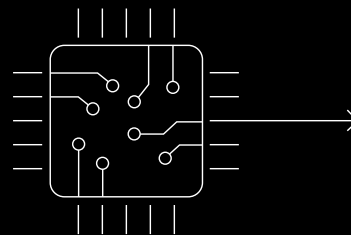

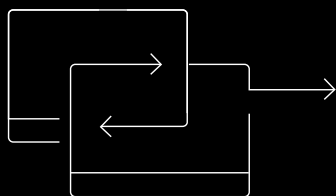

WEB
BROWSER

With the web browser functionality available from Google Playstore, web content can be accessed over the internet which doubles the display's utilization as a PC as well.

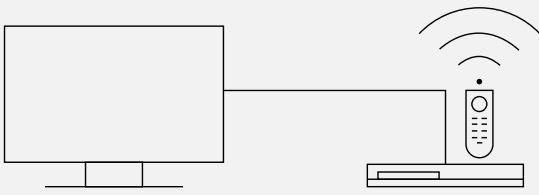

Android SOC

The built-in SOC is powered by Google's Android Platform, the series brings together the exceptional smart features and Google-certified built-in assistance tools to offer a superior viewing experience.

HDMI-CEC device linking supported

HDMI-CEC compatible devices can be connected to a display via HDMI cable, enabling the basic operation of compatible devices to be controlled by the remote control.

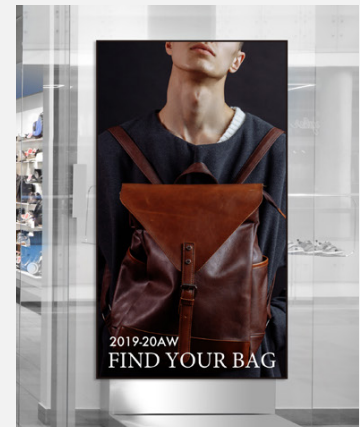

HDR-enabled displays offer a more realistic and natural image closer to how you see the real world.

Simple plug and play solutions

Displays can be installed anywhere by plugging in the power cord and inserting a USB memory device for playing your media.

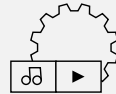

SIGNEDGE* – ONE STOP DIGITAL SIGNAGE PLATFORM
